

# TIMETRAX™ SYNC CLOCK WASH DOWN ENCLOSURE

## Installation Instructions 42689, 42690

SIMPLE : SMART™

### OVERVIEW

Thank you for choosing a TimeTrax™ Sync Clock Wash-Down Enclosure (42689/42690). This lightweight, durable plexiglass enclosure kit is used to protect analog or digital wall clocks from dust, dirt, grime, debris & splash in harsh indoor environments. The enclosure features a gasket for sealed installation and is NEMA 4 compliant. Enclosure is constructed with pre-drilled holes for easy mounting.

Model	Use With
42689	Digital Clocks
42690	13in Analog Clock

The wash down enclosure is also suitable for lights, signs and other devices.

### KIT CONTENTS

42689

Digital Wash Down Enclosure

42690

Analog Wash Down Enclosure

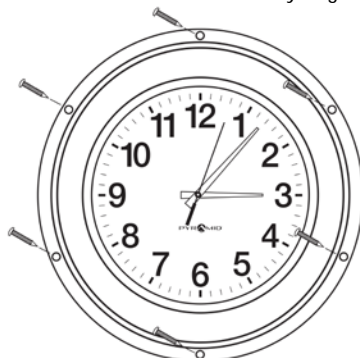

Mounting Screws (6)

### INSTALLATION

- 1 Center wash down enclosure over clock. Adjust as required to level the Enclosure. A torpedo level is recommended. Mark the location of the six mounting holes.
- 2 Remove enclosure & drill holes at marked locations using a 1/6in drill bit. If wall anchors (included) are used, drill hole size as per wall anchor instructions.
- 3 Replace the enclosure over the clock & attach to wall with six #10 screws (included). Be sure to tighten screws enough to create a seal between gasket & wall surface.

#### NOTE:

Tighten the screws to slightly compress the gasket. Over tightening may cause the gasket not to seal in areas between screws. If enclosure is to be used with a clock installed on a masonry wall or irregular surface, sealant is required. Place a bead of clear silicone caulk on gasket. Quantity or thickness of the caulk bead is determined by degree of surface irregularity.
